

EDMUND VUKO MANGI

Full-Stack Developer | React · Next.js · TypeScript · MySQL · REST APIs
+254 708 201 839 | vukoedmund670@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

BBIT graduate and Full-Stack Developer with hands-on experience building and maintaining production web applications using React, Next.js, PHP, and MySQL. Experienced in working on real client systems from design through deployment, including internal business tools and corporate websites. Comfortable reading and modifying existing codebases, debugging UI issues, and delivering maintainable front-end components with a focus on clarity and structure.

PROJECTS

Transocean Marine Surveyors Website — *Next.js, CMS Integration — In Progress*

- Developed and currently maintaining a production corporate website using Next.js
- Implemented CMS integration enabling non-technical staff to update content independently
- Responsible for ongoing improvements, debugging UI issues, and deployment updates

Videographer Portfolio Website — *React*

- Designed and built a professional portfolio site for a real client in the creative industry
- Focused on visual storytelling, clean layout, and mobile responsiveness

Job Tracker — Fullstack Application — *React, PHP, MySQL*

- Built full-stack internal productivity tool with authentication and dashboard workflows
- Designed REST API architecture in PHP and integrated MySQL backend
- Focused on clean state management and maintainable UI components

WORK EXPERIENCE

Junior Software Developer & Digital Operations Associate | *Transocean Marine Surveyors (EA) Ltd*

May 2026 – Present

- Building internal dashboards and operational tools to replace manual processes
- Prepared audit documentation for ClassNK international ship classification review
- Digitized and integrated official company seals and authorized signatures into electronic survey documentation workflows
- Conducted inventory audits of marine survey instruments and field equipment
- Assisted in ship surveys and completed official survey forms alongside certified surveyors
- Configured and deployed digital communication channels for client-facing business operations

IT & Network Support Technician | *Naya Solutions Ltd*

September 2023 – November 2023

- Configured routers, LiteBeams, and CPE devices for multi-site client network deployments
- Performed network diagnostics, signal testing, and connectivity troubleshooting to reduce client downtime
- Documented configurations and support cases to streamline team operations

IT Support Intern | *Transocean Marine Surveyors (EA) Ltd*

August 2022 – October 2022

- Provided Tier-1 technical support for hardware, OS, and networking across staff workstations
- Assisted with installation and configuration of operational software used in marine survey activities
- Supported system maintenance including OS updates, data backups, and user account management

EDUCATION

Bachelor of Business Information Technology (BBIT) | *JKUAT* September 2021 – June 2025

- Covered fullstack development, database management, information systems, network design, and business strategy
- Bridged technical and business disciplines, able to align software solutions with real organizational goals

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Web Performance Optimization

Backend & Databases: PHP, MySQL, REST API Design & Integration

Deployment & Tools: Git, GitHub, Vercel, Netlify, Render, Figma, Canva, WordPress

Networking & IT Support: LAN/Wi-Fi Setup, Router & CPE Configuration, Network Diagnostics, Windows & Linux

Workflow: Agile/SCRUM, Clean Code Principles, Technical Documentation
